Setup new Master AP

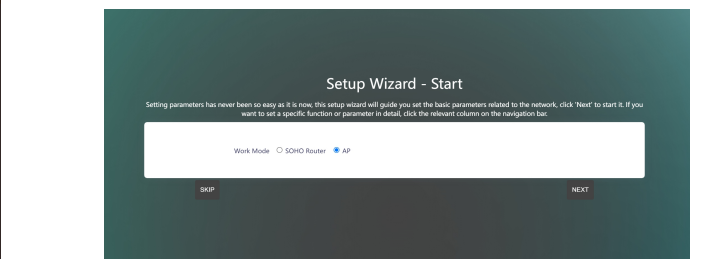

Please connect devices according to the above topology.

Follow the steps for quick Master AP configuration, using initial setup wizard:
Step 1 Connect your PC to device via Ethernet
Step 2 Launch your web browser then enter the device IP address in the address bar and specify the default login key: **admin**.
 Note : In case the device is unable to obtain IP address from a DHCP server, it will fallback to the default static IP 192.168.1.88.

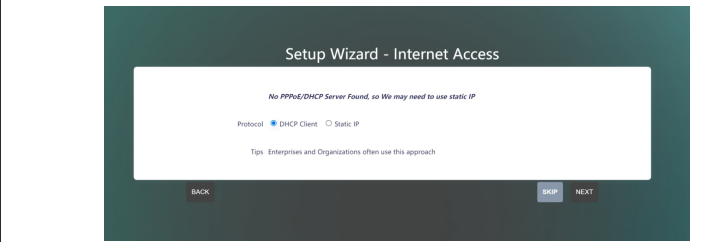

Setup new Master AP

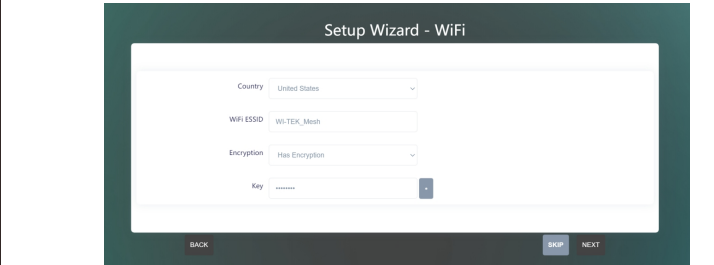

Step 3 Choose the device operating work mode **AP** and click **NEXT** button

Step 4 Choose the device operating protocol **DHCP Client** and click **NEXT** button

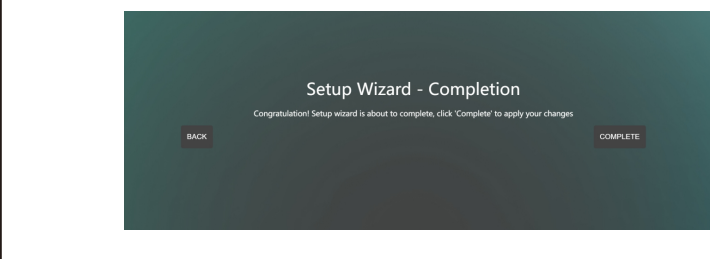

Step 5 Enter specify the **SSID** and **Key** of the wireless network and click **NEXT** button

Adding a new Managed AP

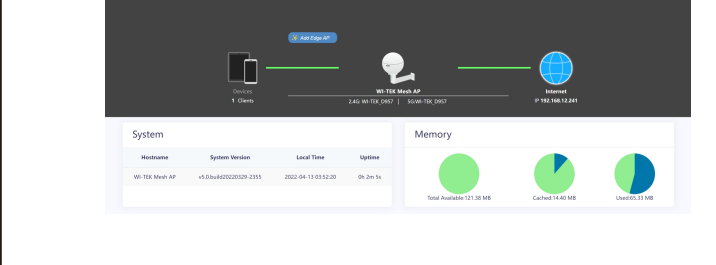

Step 6 Click **COMPLETE** button to end the quick setup

Step 1 Click **Add Edge AP** button to jump to the Mesh settings page.

Step 2 Click **Find new router** button to Search for new AP

Step 3 Click **Finish** button to added managed AP
